

R-347

High-viz impact technology and durable palm and finger patches.

Impact Vibration

High-visibility extrication gloves for search and rescue, combining flexibility with impact protection

- Specialized protection: RINGERS[®] R347 extrication gloves have been developed with Ringers' F3 Technology[™] and a patented TPR (thermoplastic rubber) design, providing impact protection with enhanced dexterity and comfort
- Increased flexibility: In addition, these impact gloves' TPR shell features two standalone detached fingers, reducing rigidness and enhancing flexibility, while affording greater cut resistance
- Improved durability and grip: Durability is enhanced by padded palm panels and fingertips with reinforced stitching, while a synthetic leather grip system ensures a tighter grasp
- Enhanced features: These RINGERS[®] gloves' highvisibility external surface and reflective fingertips and stripes ensure they are noticeable, while a cuff closure with hook and loop TPR pull tab offers a safer, more secure fit

Industries

- Mining
- Oil and gas
- Emergency Medical Services

Applications

- Rescue extraction from confined spaces
- Operating of heavy machinery
- · Crushing and unloading ore
- Shipping and loading of product
- Vehicle Maintenance
- Equipment maintenance Scaffolding Pipe handling and insulation Plumbing and sand blasting

R-347

High-viz impact technology and durable palm and finger patches.

Key Features

- Patented TPR design: Top-of-hand and finger-length impact
- High-visibility reflective fingertips: Enhanced wearer safety
- Padded palm and reinforced fingertip stitching: Excellent durability

Performance Standards & Regulatory Compliance

REACH Compliant
