Uvex safety eyewear are offered for sale exclusively in the Americas.

⚠WARNING! Uvex equipment should only be used in conjunction with the manufacturer's instructions. Failure to follow such instructions could result in serious injury including diminution or loss of vision.

uvex[®]
by SPERIAN

If it's worth protecting,
it's worth Uvex.[®]

That's because for decades Uvex has set the standard for comfort, protection and style in the workplace by providing innovative products that meet and exceed the requirement of safety personnel and workers alike. Over the years, Uvex has earned dozens of industry patents for the many technological innovations it has introduced to the marketplace. This tradition continues with the recent introduction of many new, innovative products to the eyewear portfolio. These are the latest examples of why **Nothing Protects Like Uvex.**

The Uvex® Advantage

Military V₀ & Lens Coatings

What do you get when you combine the best anti-fog coating on the market with a vast array of task-specific lens tints, ballistic level impact protection 7x higher than ANSI and CSA safety standards require, and a lifetime frame guarantee? You get the Uvex Advantage.

Military Velocity Sub-Zero Ballistic Impact Protection

The core line of Uvex safety eyewear offers protection against impact energies 7x greater than required by ANSI and CSA. Why be that much better than the standard? Because you can never be too safe.

ANSI
150 ft/sec
MIL V₀
650 ft/sec

Superior Lens Coating Technology

Uvex eyewear features superior lens coating options to address the needs of almost any working environment.

- Uvex **Dura-streme™** lenses combine our two superior lens coatings on one lens: Ultra-dura on the exterior and Uvextreme on the interior to provide up to 3x* more lens life.
- Permanently bonded to lens, **Uvextreme®AF** is a superior, dual-action anti-fog coating that maintains maximum visibility in humid conditions. When the lens is exposed to extreme moisture or humidity, its hydrophilic “water loving” properties absorb and release moisture from the lens. If the lens reaches a point of saturation, the hydrophobic “water repelling” properties take over, causing the moisture to sheet off the lens.
- The Uvex **Ultra-dura®** hardcoat is one of the toughest, siloxane-based coatings in the world. Ultra-dura is durable and permanently bonded to the lens. It will not wear off after repeated cleanings and it offers superior scratch and chemical resistance.

*Comparative lens life test performed using a Bayer Abrasion Test method and may vary between environment and application.

The Uvex® Advantage

SCT & Lifetime Frame Guarantee

uvex
by SPERIAN

Spectrum Control Technology® (SCT)

Uvex offers a wide range of task-specific lens tint options designed for use in various applications. Uvex SCT lens tints incorporate unique dyes to absorb select wavelengths of light into the polycarbonate lens. These tints provide functional assistance for specialized viewing tasks, such as in low light; under halogen, sodium vapor or fluorescent lighting; in bright sunlight; near high heat; or for torch welding, brazing or cutting.

Lifetime Frame Guarantee

Uvex stands behind its product offering 100% — no questions asked! Uvex guarantees lifetime frame replacement for any qualifying eyewear model if something should happen to it during the course of normal use, regardless of age. Simply send in the eyewear and we'll replace it. It's just another example of how the Uvex commitment to quality and customer satisfaction is the rule, rather than the exception.

Recent Introductions from Uvex®

The Uvex Genesis® Family

The best selling safety eyewear in the world is now part of a multi-solution family of products offering the best in comfort, protection and style. From the classic good looks of the original Genesis to the aggressive sports styling of the new Genesis X2™, there is never a need to compromise safety for style with the Uvex Genesis Family of safety eyewear.

The newest additions to the Uvex Genesis Family include a sporty and aggressively-styled Uvex Genesis X2 and a newly colored, Mercury Red Genesis; both of which add excitement to the line and broaden the family's appeal to a larger, more diverse audience. To round out the family's offering, the eyewear formerly known as XC® joins the Uvex Genesis Family under its new name — Genesis XC.™

Uvex Genesis XC

Uvex Genesis Mercury Red

Uvex Genesis X2

Comfort

Each member of the Uvex Genesis family delivers exceptional all-day comfort with a combination of ergonomically balanced MMT – Multi-Material Technology® frames which feature adjustable temples, cushioned brow guards, nosepieces and temple tips.

Protection

With military-level ballistic impact protection, a large selection of high-performance lens tints, the most effective anti-fog and anti-scratch coatings in the marketplace and the availability of three coverage options, the Uvex Genesis family meets the needs of most work environments that require eye protection.

Style

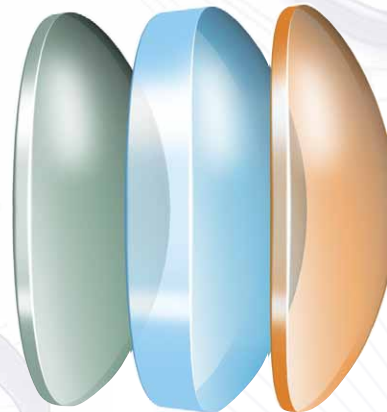

Whether it is traditional styling that you prefer or a contemporary, sporty look that you crave, the Uvex Genesis family of safety eyewear offers unique styling elements that add interest and appeal.

New Uvex® Innovations

uvex
by SPERIAN

**Uvextreme®
Anti-Fog**
on the inside
provides anti-fog
protection near
your hard-
working eyes.

**Ultra-dura®
Anti-Scratch**
on the outside adds
up to **3x* more life**
to your lenses by
protecting against
harsh elements.

Uvex Dura-streme™ Technology

Uvex continues to add solution-based innovations to its portfolio of products with its new Dura-streme coating technology.

This new groundbreaking technology brings together the benefits of the industry's leading anti-fog and anti-scratch coatings onto a single lens. With this innovation, Uvex becomes the first safety eyewear manufacturer to offer dual-coating technology to the industrial safety market.

Dura-streme technology allows two of the world's best coatings to be applied onto one lens. While a rugged, proprietary Ultra-dura anti-scratch coating protects the outside of the lens by providing premium scratch and chemical resistance, a Uvextreme anti-fog coated interior helps keep vision clear in environments where heat, mist and physical exertion are typical. Both coatings are permanently bonded to lenses for performance that lasts even after repeated routine cleanings.

Dura-streme technology is available in select Uvex Genesis® family of safety eyewear and Uvex Stealth® goggles.

*Comparative lens life test performed using a Bayer Abrasion Test method and may vary between environment and application.

Uvex Flex Seal®

- Lightweight, silicone body conforms to assure the highest level of comfort and eye protection
- Cured silicone body stays soft and supple in extreme temperatures
- Provides exceptional chemical splash and impact resistance
- Low profile and optically correct polycarbonate lens provides full field of vision
- Uvextreme® anti-fog coating and indirect venting system minimize fogging
- Fits over most prescription eyewear
- Easy and economical lens replacement system
- Pivoting clips permit the wearer to position the goggle on a hard hat or position the headband above the ears
- Meets ANSI Z87+ (High Impact) and CSA Z94.3 standards
- Made in USA

The Flex Seal goggle is the first industrial OTG (over-the-glass) goggle with an all-silicone body.

No other goggle comes close to matching this level of comfort.

The lightweight, soft silicone body conforms to almost any facial profile and provides an exceptionally snug fit for superior protection even in extreme temperatures. Once workers experience it, they'll never want to wear anything else.

Face Shields

Uvex Bionic®

- Enhanced protection from airborne debris
- Excellent optics and increased visibility
- Easily replaceable visor with dual position choices
- Secure visor attachment
- Lightweight and balanced, ergonomic design for extended use
- Comfortable cell foam on back of headgear
- Breathable, removable, washable headband
- Black matte finish
- Comfortably worn with most goggles and respirators
- Face shield offers secondary protection and must be worn with spectacles or goggles
- Perfect for workers exposed to falling or flying objects, impact, chemical splash, and airborne debris
- Hard hat accessory is compatible with multiple hard hats and was tested with Sperian® as well as major competitor styles
- Meets ANSI Z87+ (High Impact) and CSA Z94.3 standards

S8500

The Bionic Shield redefines a new level of technology in the face shield category.

- **With over 15 design patents, the Bionic Shield revolutionizes the safety market. Its advanced ergonomic design combines superior protection and all-day comfort with the kind of easy-to-use features that workers desire.**
- **Designed for end users, by end users – the Bionic Shield offers extended chin and top-of-head protection.**

With 2,784 possible positions, this highly adjustable headgear tilts the visor nearer or farther from the face, depending on preference and application.

Item #	Visor Tint/Visor Coating	Description
S8500	Clear Polycarbonate/Uncoated	Black Matte Face Shield
S8505	Clear Polycarbonate/Uncoated	Black Matte Face Shield and Hard Hat Adapter (No Suspension)
S8510	Clear Polycarbonate/Anti-fog/Hardcoat	Black Matte Face Shield
S8515	Clear Polycarbonate/Anti-fog/Hardcoat	Black Matte Face Shield and Hard Hat Adapter (No Suspension)

Uvex Lens Care Products

Uvex Clear® Lens Cleaning Products

- Specifically formulated for anti-fog and scratch resistant hardcoats
- Does not contain silicone
- Available in a 16 oz. refillable spray, 1 gallon refill or non-abrasive tissues (500/box)
- 500 non-abrasive tissues (S462)

Item #	Description
S462	Uvex Clear Tissues
S463	Uvex Clear Solution
S464	Uvex Clear Refill Solution

Uvex Clear® Permanent Lens Cleaning Station

- Includes 1 – 16 oz. Uvex Clear cleaning solution, 4 boxes of 500 tissues, 3.5" x 4.5" mirror
- Screw mounts and adhesive foam for quick wall mounting
- Measures 22.5" x 12.5"

Item #	Description
S461	Uvex Clear Permanent Station

S461

Uvex Clear® Portable Cleaning Station

- Portable and disposable station holds 16 oz. of Uvex Clear cleaning spray and 1500 tissues

Item #	Description
S467	Uvex Clear Disposable Lens Station

Uvex Clear® Towelettes

- Handy pocket size pre-moistened lens cleaning towelettes
- 100 towelettes per box

Item #	Description
S468	Uvex Clear Towelettes

S468

For product tints and tint suggestions by application, see our Lens Charts on pages 34-35.

Accessories

Uvex Fog Eliminator Cloths

- Formulated to effectively protect lenses from all types of fogging caused by cold, high humidity or sudden temperature changes
- Safe for all surfaces, including polycarbonate and glass
- Each cloth provides multiple applications
- Streak and film free, alcohol and silicone free
- Non-flammable and non-toxic
- Made in USA

Item #	Description
S477	Uvex Fog Eliminator Cloths

Uvex Cases and Cords

Uvex Eyewear Cases

- Fit most Uvex eyewear to protect lenses from scratches and abrasion
- Available in a nylon drawstring pouch, hard case* or economy case**

Item #	Description
S487	Rip-Stop Nylon Bag Eyewear Case, Black
S489	Hard Eyewear Case with Belt Loop, Black
S490	Economy Eyewear Case, Black

*Not suitable for Uvex Astrospec 3000® series
**Not suitable for Uvex Astro OTG® 3001

Uvex Packs

- Made of durable nylon, zippers and belt loops
- Available in eyewear and goggle sizes

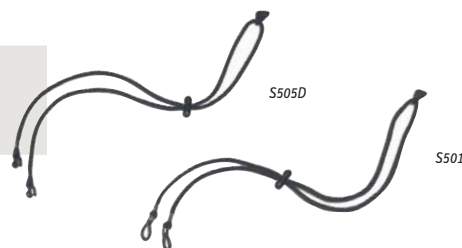

Item #	Description
S491	Eyewear Pack, Black
S493	Universal Goggle Pack, Black

Uvex Hang Cords

- Provide convenient access to safety eyewear and encourage greater compliance
- Available in a universal or snap-fit cord

Item #	Description
S501	Universal Neck Cord, Black
S505D	Snap-Fit Neck Cord for Duoflex Cushioned Temples, Black

For descriptions and chemical resistance, see our Coating Chart on page 36.

Reference: Lens Coating Description & Chemical Resistance

Uvex has developed proprietary coatings to meet the demands of even the most challenging work environments. Uvextreme® anti-fog coating offers superior performance under the most extreme conditions and will not wear off after repeated cleanings. It is permanently bonded to the lens which helps it retain its anti-scratch, anti-static and UV protection properties. Ultra-dura® hardcoat, one of the toughest siloxane-based coatings in the world, is also permanently bonded to the lens and offers superior scratch and chemical resistance. In addition, Uvex Dura-streme™ technology combines the benefits of these industry-leading

anti-fog and hardcoats onto one lens. While the advanced anti-fog properties of Uvextreme help keep the interior of the lens clear from fogging, the rugged properties of Ultra-dura hardcoat protect the exterior of the lens from scuffs and scratches, adding up to 3x* more life to lenses.

The chemical resistance chart below will help to determine the preferred coating for environments where workers are subject to chemical exposure.

	KEY Y = Resistant • = Limited resistance N = Not resistant	Ultra-Dura	Uvextreme	Dura-streme Dual Coating	
		Hardcoat	Anti-Fog	(Ultra-Dura Lens Exterior)	(Uvextreme Lens Interior)

HARLEY-DAVIDSON[®]

The Uvex Difference

**Titmus has changed its name...
but “The Difference” remains.**

The Titmus[®] brand is now Uvex[®], the premier safety eyewear brand in industry. Our full collection of safety Rx eyewear is now part of this exciting and well-known brand.

Engineered specifically for industrial applications where hazards are present, our products are designed for fashion but built to perform to ANSI requirements.

Service is a big part of our life at Uvex. We believe it is important to treat everyone the way we would like to be treated...it's that simple.

Quality is a way of life at Uvex. We are strict adherents to the ANSI Z87.1 Standard because this standard is the most stringent regulatory requirement. We test and re-test every product on a regular basis and make those results available to you any time you want or need them...no other safety Rx eyewear company does this.

An important component of all safety eyewear programs is prescription safety eyewear. If you have employees who require safety glasses outfitted with an individual prescription in them, Uvex Rx is your best resource to finding an optimal solution.

Uvex Rx works hand-in-hand with hundreds of safety optical laboratories in the Americas that can support your needs in building an efficient, cost effective and convenient safety prescription (Rx) eyewear program for your employees. Here's How:

Assess Your Requirements: Uvex Rx can assist you in making determinations about the types of safety eyewear your employees may need. Based on that information, we can then work to put your company in touch with an appropriate laboratory.

Assist in the Choice of a Supplier Lab: Uvex Rx has worked with independent optical laboratories for many years in the development of their safety eyewear businesses. We understand their technical capabilities as well as their service levels. As a result, we can help you identify and partner with the best possible supplier of Rx safety eyewear for your employees

Provide Training Materials: Uvex Rx can also provide training information and materials for you and your employees.

Support You with Seasoned Sales Professionals and Customer Care Personnel: Uvex Rx has dedicated people who care about your needs and are prepared to work with you to solve your safety Rx issues.

Prescription Safety Frames

All Uvex Safety Rx Eyewear meet the ANSI Z87.1 Standard and are regularly tested on an ongoing basis to ensure continuing compliance.

Actual test data is made available to anyone requesting it on every product we provide to our customers.

No other industrial safety Rx eyewear company does this.

Introducing the “N-Tite™” System

The new N-Tite System is designed to increase lens retention so that employees who work in environments where hazardous impacts are possible are protected in accordance with ANSI Z87.1 Standard guidelines.

This robust system is now available on selected products in the Titanium and Exclusive collections.
